GEMMA[®] DISPENSER

FEATURES

Innovation, hygiene and style for the perfect breakfast

With its elegant, modern, and compact design, **GEMMA[®] by ValGarda Breakfast** is now also available in an **automatic contactless** version.

Unique in its category on the market, this dispenser uses **patented technology** to dispense a variety of products with precision and cleanliness:

- **Jams** in various flavors
- **Acacia honey**
- **Maple syrup**
- **Hazelnut spread** (palm oil-free)
- **Peanut butter**

The products come in **practical bottles of over 1 kg**, perfect for professional and continuous use.

GEMMA[®] is exclusively designed and distributed by **ValGarda**.

CONTACTLESS OPERATION

Thanks to the contactless sensor, simply keeping your hand close activates the dispenser: hygienic, practical, and safe.

PORTION CONTROL

Each dispensing corresponds to a predefined amount, avoiding waste and ensuring consistent service.

CONSISTENTLY HIGH PRODUCT QUALITY

The bottle is not punctured, protecting the contents from oxidation and contamination, ensuring longer-lasting freshness.

QUICK AND EASY REFILLS

Just replace the bottle – no need to pour or transfer, no hassle.

EASY TO CLEAN

No parts to disassemble: cleaning operations are quick and intuitive.
